3.2 Activity & Screenshot

Milestone-1: Introduction

Are you new to Salesforce? Not sure exactly what it is, or how to use it? Don't know where you should start on your learning journey? If you've answered yes to any of these questions, then you're in the right place. This module is for you. Welcome to Salesforce! Salesforce is game-changing technology, with a host of productivity-boosting features that will help you sell smarter and faster. As you work toward your badge for this module, we'll take you through these features and answer the question, "What is Salesforce, anyway?"

What Is Salesforce?

Salesforce is your customer success platform, designed to help you sell, service, market, analyze, and connect with your customers.

Salesforce has everything you need to run your business from anywhere. Using standard products and

features, you can manage relationships with prospects and customers, collaborate and engage with employees and partners and store your data securely in the cloud.

So, what does that really mean? Well, before Salesforce, your contacts, emails, follow-up tasks, and prospective deals might have been organized something like this:

<https://youtu.be/r9EX3IGde5k>

Activity: Creating Developer Account

Creating Developer Account

Creating a developer org in salesforce.

1. Go to developers.salesforce.com/
2. Click on sign up.
3. On the sign-up form, enter the following details:
 - a. First name & Last name
 - a. Email
 - b. Role: Developer
 - c. Company: College Name
 - d. Country: India
 - e. Postal Code: pin code
 - f. Username: should be a combination of your name and company

This need not be an actual email id; you can give anything in the format:

[username@organization.com](#)

Click on sign up after filling these.

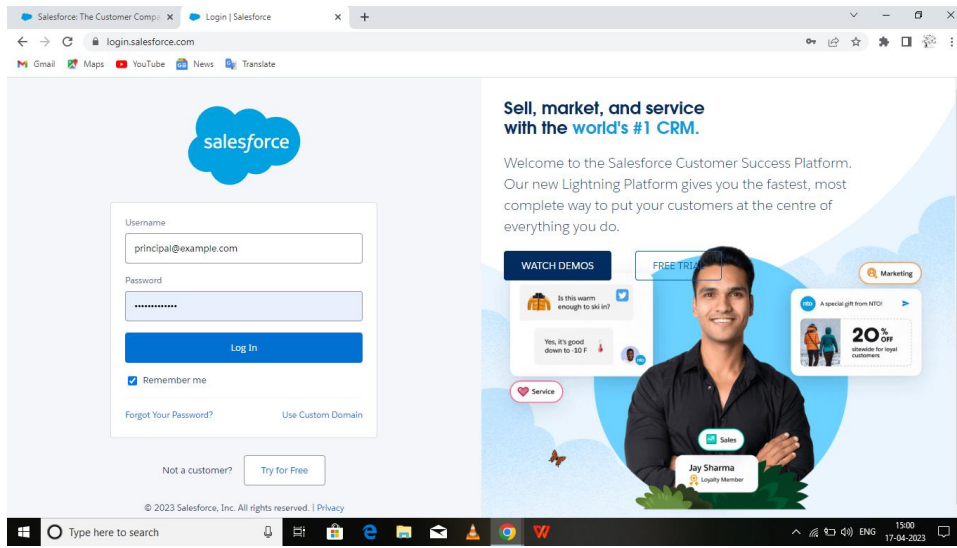

Account Activation

Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins, as

Login To Your Salesforce Account

1. Go to salesforce.com and click on login.
2. Enter the username and password that you just created.
3. After login this is the home page which you will see. Salesforce **Login**

https://login.salesforce.com

Milestone-2: Object

Salesforce objects are **database tables that permit you to store data that is specific to an organization**. Salesforce objects are of two types: Standard Objects: Standard objects are the kind of objects that are provided by salesforce.com such as users, contracts, reports, dashboards, etc.

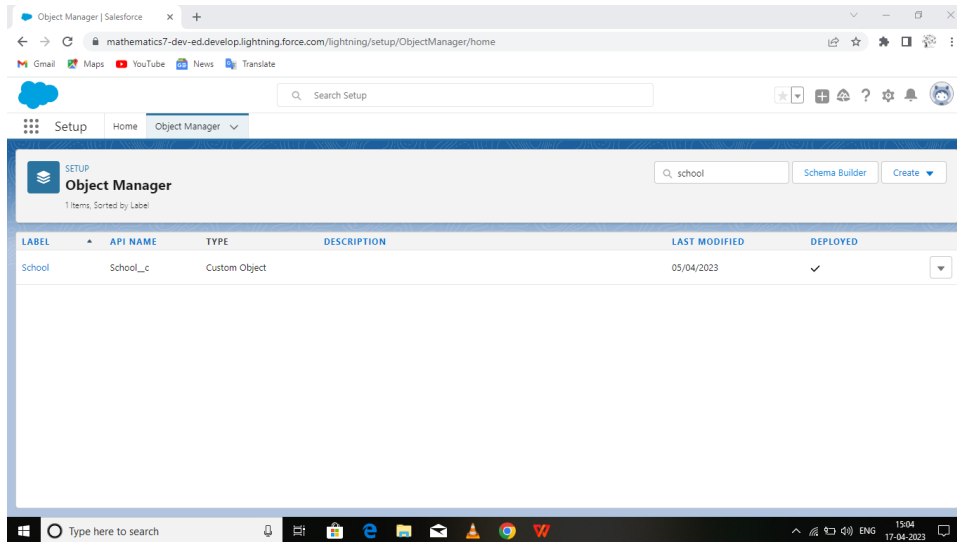

Activity-1: Creation of School Object

Creation of Objects for School Management:

For this school management we need to create 3 objects i.e., school, parents and students.

The steps below will assist you in creating those objects.

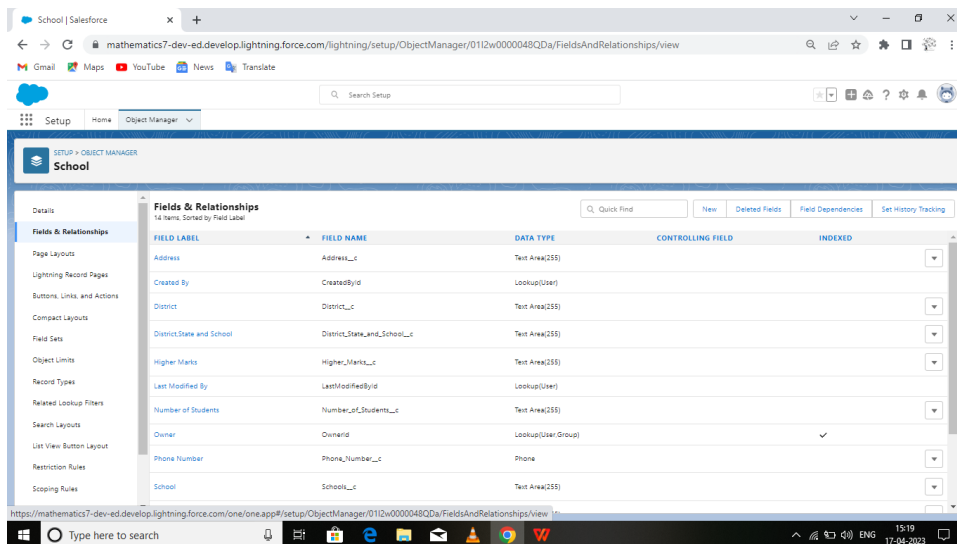

1. Click on the gear icon and then select Setup.

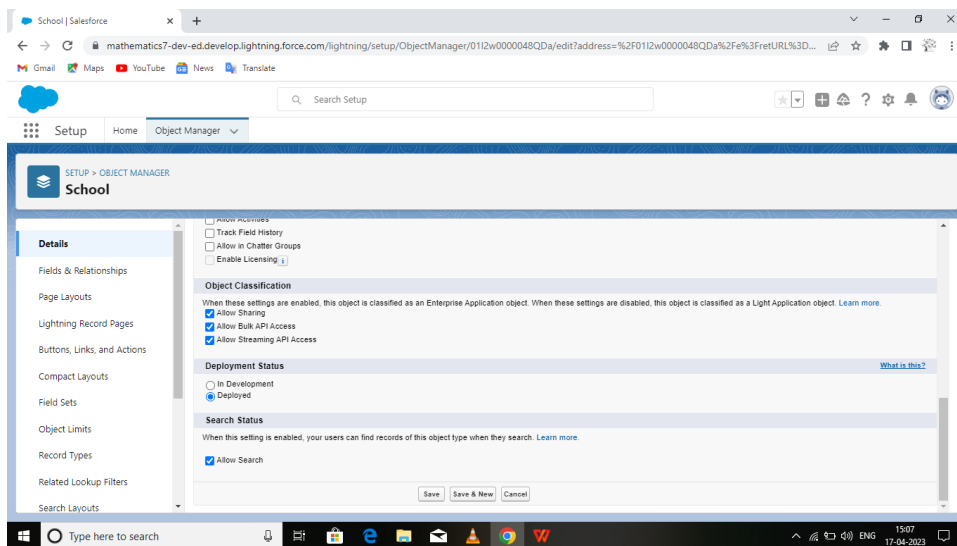

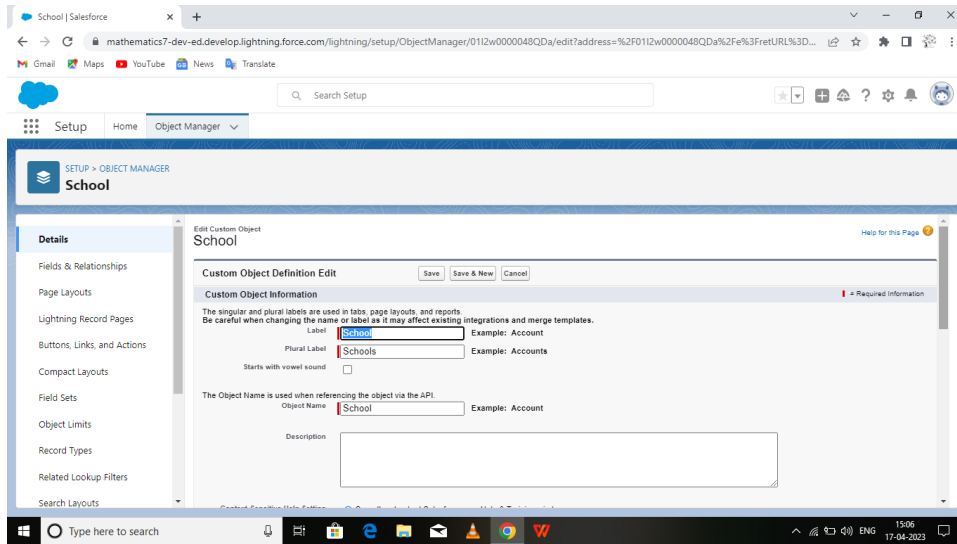

2. Click on the object manager tab just beside the home tab.

3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.

- On the Custom Object Definition page, create the object as follows:
- Label: School
- Plural Label: Schools
- Record Name: School Name
- Check the Allow Reports checkbox
- Check the Allow Search checkbox
- Click Save.

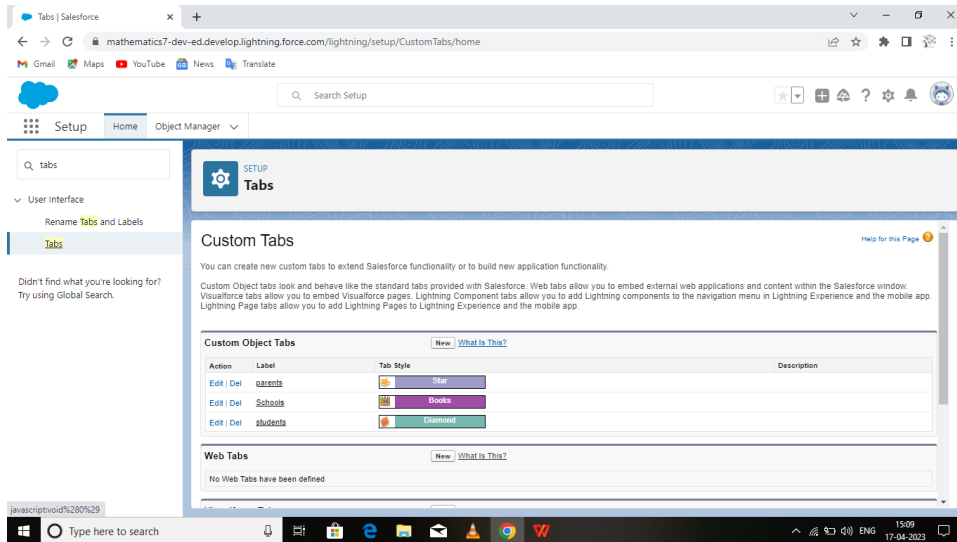

Now create a custom tab. Click the Home tab, enter Tabs in Quick Find and select Tabs.

Under Custom Object Tabs, click New.

1. For Object, select School.

2. For Tab Style, select any icon.

3. Leave all defaults as is. Click Next, Next, and Save. IN the same way create other objects such as students and parents.

Activity 2: Create student object

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.

- On the Custom Object Definition page, create the object as follows:
- Label: Students
- Plural Label: Students
- Record Name: Student Name
- Check the Allow Reports checkbox
- Check the Allow Search checkbox
- Click Save.

Now create a custom tab. Click the Home tab, enter Tabs in Quick Find and select Tabs.

Under Custom Object Tabs, click New.

1. For Object, select Students.
2. For Tab Style, select any icon.
3. Leave all defaults as is. Click Next, Next, and Save.

Activity 3: Create parent object

1. Click on the gear icon and then select Setup.

2. Click on the object manager tab just beside the home tab.

3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.

- On the Custom Object Definition page, create the object as follows:
- Label: Parent
- Plural Label: Parents
- Record Name: Parent Name
- Check the Allow Reports checkbox
- Check the Allow Search checkbox
- Click Save.

Now create a custom tab. Click the Home tab, enter Tabs in Quick Find and select Tabs. Under Custom Object Tabs, click New.

1. For Object, select Parents.
2. For Tab Style, select any icon.
3. Leave all defaults as is. Click Next, Next, and Save.

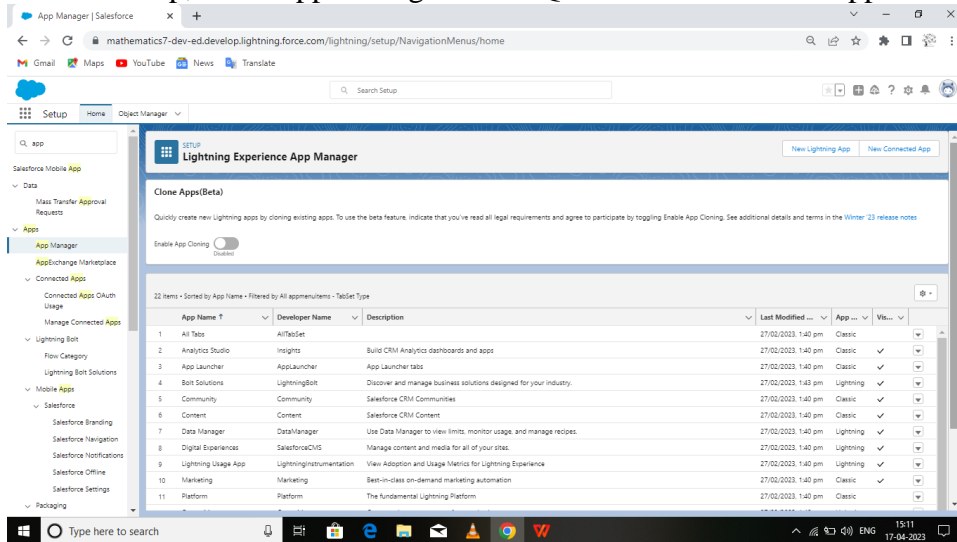

Milestone-3: Lightning App

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs

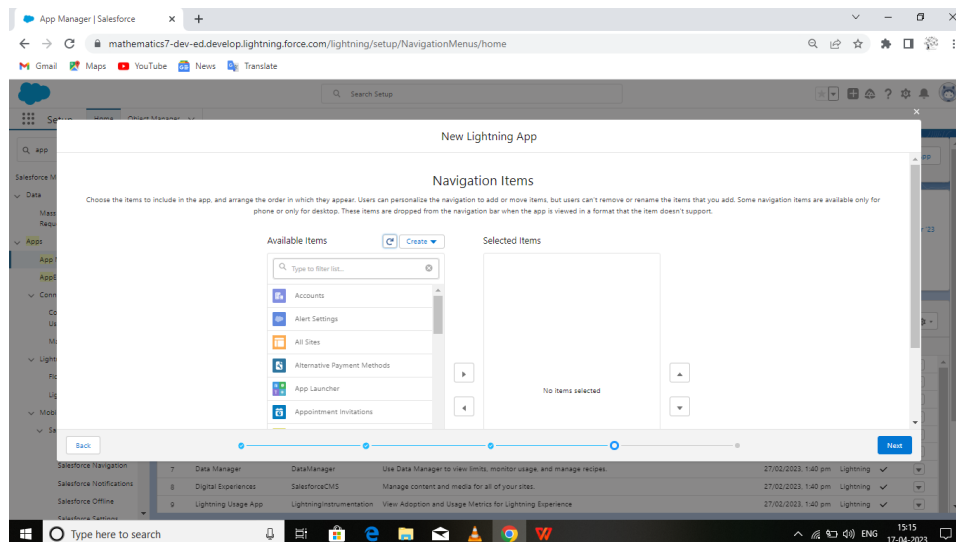

Activity:

Create the School Management app

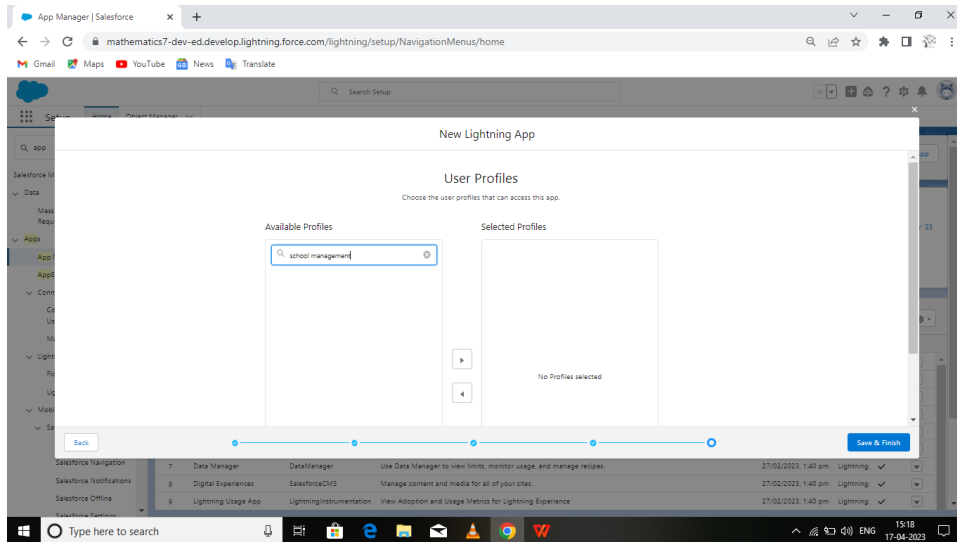

- From Setup, enter App Manager in the Quick Find and select App Manager.

- Click New Lightning App. Enter School Management as the App Name, then click Next
- Under App Options, leave the default selections and click Next.
- Under Utility Items, leave as is and click Next.
- From Available Items, select Schools, Students, Parents, Reports, and Dashboards and move them to Selected Items. Click Next.

- From Available Profiles, select System Administrator and move it to Selected Profiles.
- Click Save & Finish.

- To verify your changes, click the App Launcher, type School Management and select the School Management app.

Note:

1. App Launcher-Displays available apps.
2. App Name-Displays the currently selected app.
3. Navigation Menu-Displays the tabs available inside the app

Milestone -4: Fields and Relationship

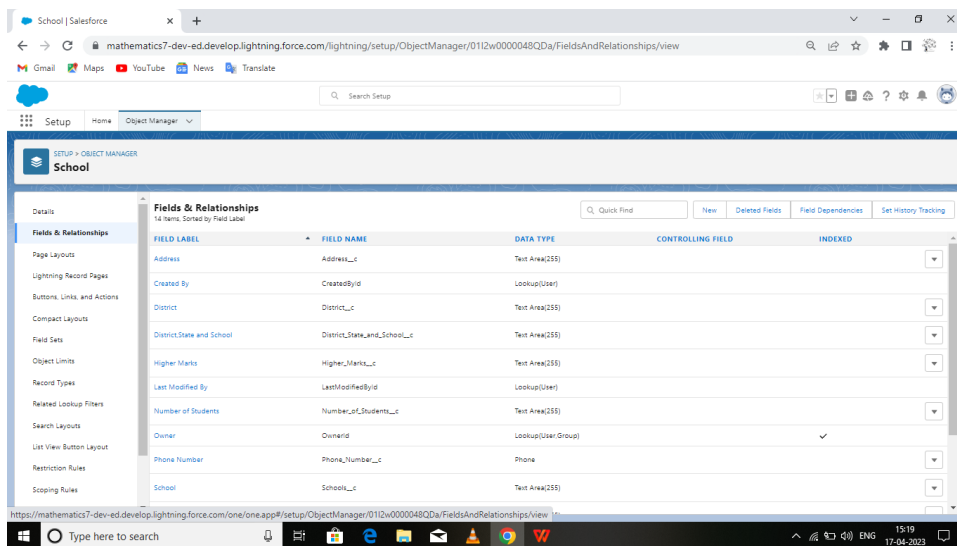

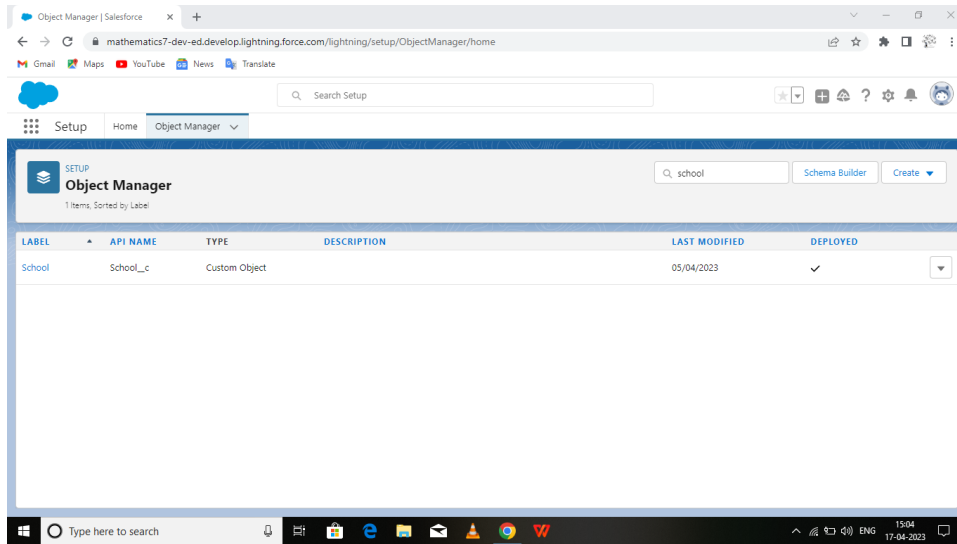

An object relationship in Salesforce is **a two-way association between two objects**.

Relationships are created by creating custom relationship fields on an object. This is done so that When users view records, they can also see and access related data.

Activity-1:

Creation of fields for the school objects:

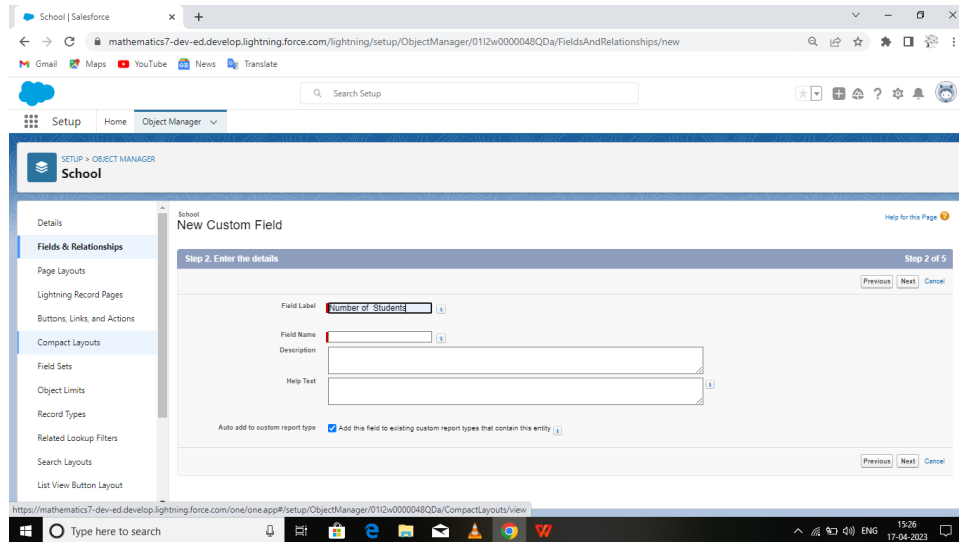

1. click the gear icon and select Setup. This launches Setup in a new tab.
2. Click the Object Manager tab next to Home.
3. Select School.
4. Select Fields & Relationships from the left navigation, and click New

Now we're ready to make a custom field. Let's do this!

1. Select the Text Area as the Data Type, then click Next.
2. For Field Label, enter Address.
3. Click Next, Next, then Save & New.
4. Follow steps 1 through 3 and create two more text areas with District, State and School websites as the field labels.

Now let's create the other fields and we must choose the data types of the fields carefully. Let's Have a look at it.

For example, a phone number is a number field. For that we need to select the phone as data type.

Let's see this

1. Select the Phone as the Data Type, then click Next.
2. For Field Label, enter Phone Number.
3. Click Next, Next, then Save & New.

Let's create Roll-up summary fields to calculate the number of students

1. From Setup, click Object Manager and select School.
2. Click Fields & Relationships, then New.
3. Select the Roll-up summary field as data type
4. Enter the field label as Number of students
5. Click Next
6. Then select the master object summarized as students and then select count as roll-up and then click Next, Next and save.

1. From Setup, click Object Manager and select School.
2. Click Fields & Relationships, then New.
3. Select the Roll-up summary field as data type
4. Enter the field label as Highest Marks
5. Click Next
6. Then select the master object summarized as students and then select Max as roll-up and

then select Marks as field to aggregate. Click Next, Next and save.

Activity-2:

Creation of fields for the student objects:

1. Select the Phone as the Data Type, then click Next.
2. For Field Label, enter Phone Number.
3. Click Next, Next, then Save & New

Let's create a master-detail relationship with school object

1. Select Master-Detail Relationship as the Data Type and click Next.
2. For Related to enter School.
3. Click Next.
4. For Field Label, enter School.
5. Click Next, Next, Next and Save.

Let's create a Pick-List field:

1. From Setup, click Object Manager and select Student.
2. Click Fields & Relationships, then New.
3. Select Picklist as the Data Type and click Next.
4. For Field Label enter Results.
5. Select Enter values, with each value separated by a new line and enter these values:
6. Pass
7. Fail
8. Click Next, Next, then Save & New

Let's create a Number field:

1. Select the Number as the Data Type, then click Next.
2. For Field Label, enter Class.
3. Click Next, Next, then Save & New
4. Follow steps 1 through 3 and create one more number field with Marks as the field labels.

Activity-3:

Creation of fields for the Parent objects:

1. Select the Text Area as the Data Type, then click Next.
2. For Field Label, enter Parent Address.
3. Click Next, Next, then Save & New.
4. Select the Phone as the Data Type, then click Next.
5. For Field Label, enter Parent Number.
6. Click Next, Next, then Save & New

Milestone-5: Profile

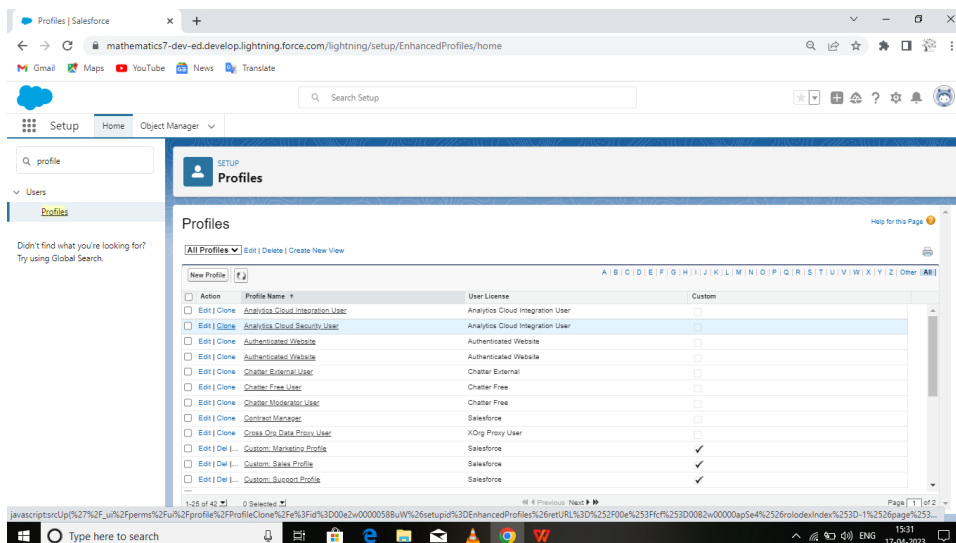

A profile is **a group/collection of settings and permissions that define what a user can do in salesforce**. A profile controls “Object permissions, Field permissions, User permissions, Tab settings, App settings, Apex class access, Visualforce page access, Page layouts, Record Types, Login hours & Login IP ranges

Activity:

Creation on profile:

From Setup enter Profiles in the Quick Find box and select Profiles.

1. From the list of profiles, find Standard User.
2. Click Clone.

3. For Profile Name, enter School profile.
4. Click **Save**.
5. While still on the school profile page, then click **Edit**.

6. Scroll down to Custom Object Permissions and Give view all access permissions and assign to the parent profile

Milestone-6: Users

A user is **anyone who logs in to Salesforce**. Users are employees at your company, such as sales reps, managers, and IT specialists, who need access to the company's records. Every user in Salesforce has a user account.

Activity:

Creating a User's:

1. From Setup, in the Quick Find box, enter Users, and then select Users.
2. Click New User.
3. Enter the user's name Parents and (Your) email address and a unique username in the form of an email address. By default, the username is the same as the email address.
4. Select a User License As salesforce.
5. Select a profile as a school profile.
6. Check Generate new password and notify the user immediately to have the user's login name and a temporary password emailed to your email.7. Similarly follow the above steps and create 3 users as Teachers and Principals.

The screenshot shows the Salesforce Setup interface. On the left, the 'Setup' menu is open, and 'Users' is selected under 'User Management Settings'. The main content area is titled 'New User' and contains a 'User Edit' form. The form has two columns of fields. The left column includes: First Name (akalya), Last Name (bala), Alias (abala), Email (akalyabala2004@gmail.com), Username (akalyabala2004@gmail.com), Nickname (User1681307532602539306), Title (crm), Company (smartinternz), Department (school managenent), and Division (Thiruvavur). The right column includes: Role (None Specified), User License (Salesforce Platform), Profile (Standard Platform User), Active (checked), Marketing User (unchecked), Offline User (unchecked), Knowledge User (unchecked), Flow User (unchecked), Service Cloud User (unchecked), Site.com Contributor User (unchecked), and Site.com Publisher User (unchecked). At the top of the form, there are buttons for 'Save', 'Save & New', and 'Cancel'. A 'Required Information' indicator is visible on the right side of the form.

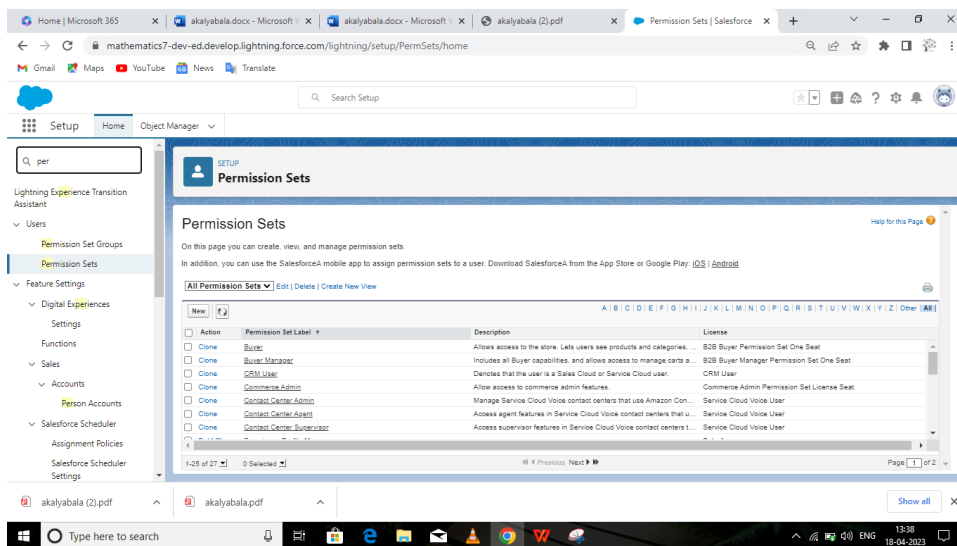

Milestone-7: Permission sets

A permission set is a collection of settings and permissions that give users access to various tools and functions. Permission sets extend users' functional access without changing their profiles.

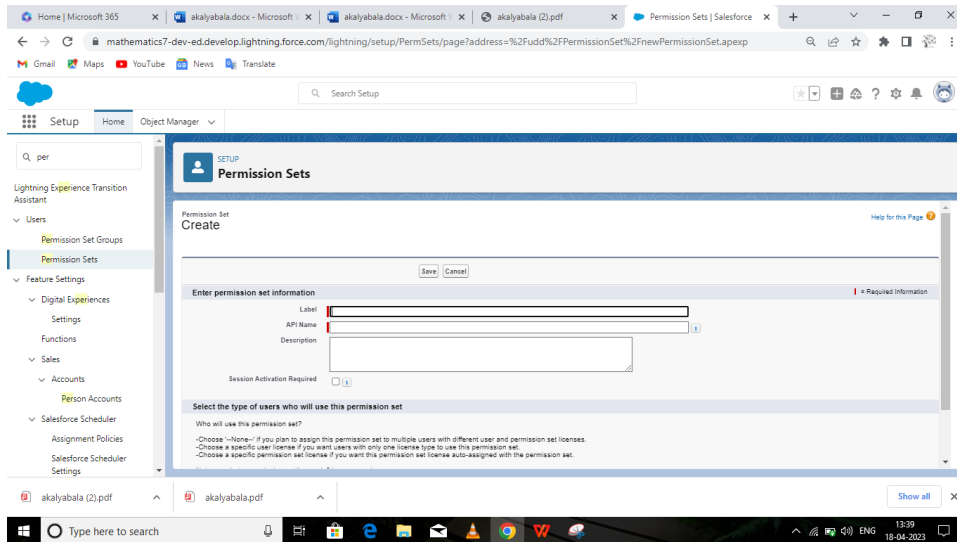

Activity-1:

Permission sets 1:

1. From Setup, enter Permission Sets in the Quick Find box, then select Permission Sets.
2. Click New.

3. Give the name of the Permission set name as teacher permission and then under the object settings give the view create and edit permissions to all custom objects and assign
- Similarly follow the above steps for the permission set 2.

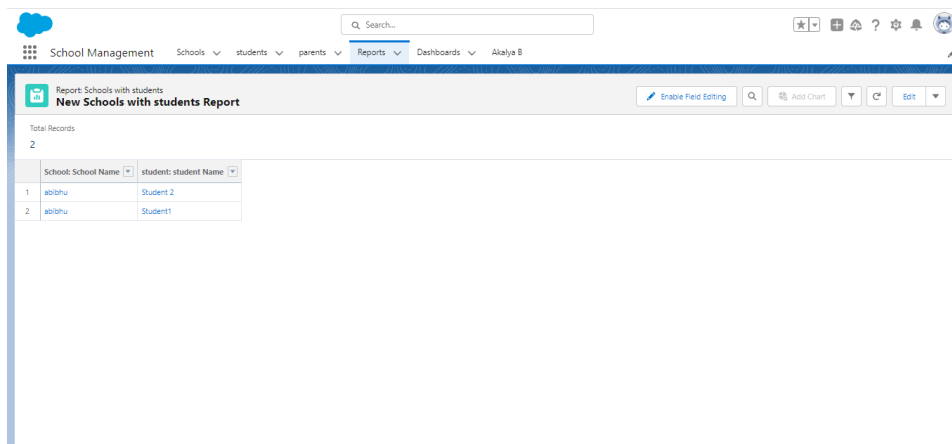

Activity-2:

Permission sets 2:

1. From Setup, enter Permission Sets in the Quick Find box, then select Permission Sets.
2. Click New.
3. Give the name of the Permission set name as Principal permission and then under the object settings give all permissions for the custom objects and assign them too the Principal user.

Milestone-8: Reports

A report is a **list of records that meet the criteria you define**. It's displayed in Salesforce in rows and columns, and can be filtered, grouped, or displayed in a graphical chart. Every report is stored in a folder. Folders can be public, hidden, or shared, and can be set to read-only or

read/write.

Activity:

Reports:

1. From the Reports tab, click New Report.2. Select the report type as School with students and parents for the report and click Create.

3. Customize your report, then save or run it.
